ShakeCast AEBM Workbook

 Edit me

The ShakeCast Advanced Engineering Building Module (AEBM) Workbook is being designed for users with detailed information about their facilities who are also interested in receiving more accurate potential impact estimates. It is currently in the development phase and will be available for use in eary 2017 along with the Beta release of pyCast (/shakecast/pycast_docs.html).

More documentation and specific requirements for use will be released when the workbook is ready for user testing.
